Kwabena Asamoah-Tetteh

Cloud Platform Engineer

kwabena.asamoah-tetteh@example.net · Dublin, Ireland

SUMMARY

Junior cloud engineer, two years in the field after a graduate programme. I help run a Kubernetes platform on Google Cloud, write Terraform for new environments and fix pipeline failures. Eager to learn, comfortable with on-call shadowing and keen on reliability work.

SKILLS

Kubernetes	GKE	Terraform
GitHub Actions	Docker	Python
Bash	Cloud Monitoring	Git

EXPERIENCE

Period	Position	Responsibilities
2023 – Present	**Cloud Platform Engineer** Liffeyside Data Services	• Support a Kubernetes platform on GKE used by 25 engineers: namespace onboarding, resource quotas and access requests. • Write Terraform changes for new projects and networks, reviewed by senior engineers. • Maintain GitHub Actions workflows that build, scan and publish container images. • Resolved 60+ support tickets from development teams in the first year.
2022 – 2023	**Graduate Infrastructure Engineer** Corribwell Technologies	• Rotated through the networking, cloud and monitoring teams. • Built a Python tool that reports unused cloud resources every week.

EDUCATION

2018 – 2022	BSc Computer Science	Western Shannon University

LANGUAGES

English (fluent), Twi (native)

CERTIFICATIONS

- Google Associate Cloud Engineer
