Amara Okonkwo-Pryce

Junior Test Automation Engineer

amara.okonkwo@example.org · London, United Kingdom

SUMMARY

Junior automation engineer with two years of experience after a maths degree. I write Python tests for web and API layers, keep tests tidy and love finding edge cases others miss. I am proud of how quickly I picked up testing practice: I read widely, ask questions, and keep a small public repository of examples that I update weekly with new patterns I learn. I welcome feedback and work well in small teams.

SKILLS

Python, pytest, Requests, Selenium, Behave, Git, GitHub Actions, JSON schema validation, Linux command line, JSON, Postman, Bug reporting, Pandas, Agile, Debugging, Test design

EXPERIENCE

Junior Test Automation Engineer, Thamesbank Software 2023 – Present

- Developed 150 pytest API tests for a customer account service.
- Added schema validation catching three breaking response changes.
- Set up scheduled test runs in GitHub Actions with Slack notifications.
- Refactored duplicated test code into fixtures, shortening the suite by around 20% and making failures easier to read.
- Review developer pull requests for testability and suggest missing assertions.

Graduate QA Analyst, Southwark Data Systems 2022 – 2023

- Followed test scripts and recorded results.
- Wrote first automation scripts for report exports using Selenium.
- Learned Git workflow and code review practices.
- Wrote a short onboarding page that explains how to run the suite locally.
- Paired with a senior engineer on a performance script for the payments API.

Data Analyst Intern, Peckham Insights Summer 2021

- Cleaned and validated survey data sets with Python and spreadsheets, spotting inconsistencies others missed.
- Wrote scripts to check data files automatically before they were loaded into reports.
- Presented findings to a small team in a ten-minute talk.
- Learned pandas and SQL through hands-on exercises, which now helps with test data preparation.
- Volunteered to prepare slides and speak at the end-of-summer showcase.

EDUCATION

- BSc Mathematics (dissertation on statistical modelling of software defects), University of Eastern Fenland (2019 – 2022)

LANGUAGES

English (native), Igbo (basic)
