Anjali Deshpande-Roark

Senior iOS Engineer

anjali.deshpanderoark@example.com · Dublin, Ireland

SUMMARY

Senior iOS engineer with ten years of experience building consumer apps with millions of downloads. I care about smooth animations, thoughtful offline behaviour and small, well-tested modules that other engineers can reuse. I enjoy mentoring, speaking at mobile meetups and sharing practical lessons about shipping apps that people open every day. I enjoy collaborating with designers and product managers.

SKILLS

Swift	SwiftUI	UIKit
Combine	Core Data	Swift Concurrency
XCTest	Swift Package Manager	Fastlane
App Store Connect	TestFlight	Instruments
Alamofire		

EXPERIENCE

Period	Position	Responsibilities
2019 – Present	**Senior iOS Engineer** Liffey Fitness Technologies	• Own the iOS app for a fitness platform with 2.5 million installs and a 4.7 store rating. • Created a shared SwiftUI component library used by three apps, cutting new-screen delivery time by a third. • Rebuilt workout sync with Swift Concurrency and Core Data; sync conflicts dropped by 90%. • Automated beta builds and release notes with Fastlane. • Mentor three engineers and lead the iOS guild across the company.
2014 – 2019	**iOS Developer** Wicklow Apps	• Built and maintained Objective-C and later Swift apps for retail and media clients. • Led the migration of a 200k-line app to Swift modules. • Introduced snapshot testing. • Delivered an offline-first catalogue feature that worked on trains and in weak signal areas. • Wrote the migration guide for the Swift upgrade.
2013 – 2014	**Junior Developer** Dalkey Mobile	• Implemented UI screens and fixed defects on an events app. • Learned the App Store release process and basic UIKit patterns. • Introduced snapshot and UI tests for the core workout flow, reducing regression bugs reported after release. • Collaborated with designers on motion guidelines and haptic feedback. • Wrote short guides for new engineers on the architecture and release process.

EDUCATION

2009 – 2013	BSc Computer Science	Dublin Institute of Digital Technology

LANGUAGES

English (native), Hindi (B2)
