Bartholomew Ingleby-Shaw

Frontend Developer

bartholomew.ingleby@example.net · Leeds, United Kingdom

SUMMARY

Frontend developer of seven years who builds marketing sites and customer portals in React. I am a keen learner, enjoy working with designers, and like to keep a broad understanding of the wider technology landscape around the products I build. Colleagues describe me as dependable, friendly and detail-oriented, and I spend my spare time sketching interface ideas and following design blogs.

SKILLS

React, JavaScript, TypeScript, HTML, CSS, Sass, Webpack, Jest, Docker, Kubernetes, Terraform, CI/CD, AWS, Azure, Ansible, Jenkins, Prometheus, Microservices, Agile, Scrum, Framer Motion, Email templates, Figma

EXPERIENCE

Frontend Developer, Pennine Brand Agency 2020 – Present

- Build responsive campaign sites and React portals for retail and travel clients.
- Implement animations with CSS and Framer Motion on the main product pages.
- Attended an internal Kubernetes workshop to understand how the hosting team deploys our builds.
- Familiar with Terraform and CI/CD concepts from sitting in on platform team demos.
- Review designs for feasibility with creative directors before pitches and estimate build effort for new sections.

Web Developer, Aire Valley Digital 2017 – 2020

- Created WordPress themes and React widgets for local businesses.
- Improved image loading with lazy loading and responsive srcset attributes.
- Fixed layout issues reported by testers on mobile browsers.
- Trained the account team on how to preview and approve content changes in a staging environment.
- Built a small library of Sass mixins reused across eleven client sites.

Junior Web Designer, Kirkgate Creative 2015 – 2017

- Produced HTML emails and landing pages for newsletters.
- Assisted senior colleagues with email template testing across mail clients.
- Learned the basics of JavaScript through weekly lunch sessions.
- Produced mobile-friendly emails tested across mail clients and fixed numerous rendering issues.
- Learned basic JavaScript animation and responsive image techniques from colleagues.

EDUCATION

- BA Graphic Communication (dissertation on web typography and readability), Leeds Moorland College (2012 – 2015)
