Callum Draycott

Flutter Developer

callum.draycott@example.net · Leeds, England

SUMMARY

Flutter developer with two years of experience creating cross-platform apps for startups. Enjoys rapid prototyping, clean widget structure and gathering feedback from real users early. I build personal apps in my spare time and release them to friends for honest feedback, which keeps my skills sharp and my attitude humble. I welcome feedback and enjoy collaborating with designers.

SKILLS

Dart	Flutter	Riverpod
Firebase	REST	SQLite
Flutter Test	Figma handoff	Git
Google Play Console	Bloc	GitHub Actions

EXPERIENCE

Period	Position	Responsibilities
2024 – Present	**Flutter Developer** Aire Valley Labs	• Develop a cross-platform wellbeing app in Flutter with Riverpod, available on iOS and Android. • Implemented push notifications and in-app purchases with Firebase. • Improved list scrolling and image caching, lifting frame rate from 40 to a steady 60 fps. • Collaborate with designers through Figma and weekly demos. • Present demos to stakeholders and gather feedback from beta users every sprint.
2023 – 2024	**Junior Mobile Developer** Pennant Interactive	• Built screens and API integrations for a loyalty card app. • Wrote widget tests and fixed accessibility labels. • Learned the release process for both stores and handled screenshots and metadata. • Fixed a long-standing navigation bug on Android that crashed the app after rotation. • Wrote setup documentation and a contribution guide so that new developers could build the app on the first day.
2022 – 2023	**Placement Student, Mobile Development** Calder Interactive	• Spent a year in industry building Flutter prototypes for clients. • Learned to write widget tests and use feature branches and pull requests. • Presented a working prototype to a client in my third month. • Tested on a shelf of old Android phones and fixed layout issues on small screens. • Helped the founders prioritise features using user interviews.

EDUCATION

2019 – 2023	BSc Games and Software Development	University of Leeds Metropolitan
