Camila Rezende Tavares

Python Backend Developer

camila.tavares@example.org · Recife, Brazil

SUMMARY

Backend developer with three years of experience in fintech startups. Strong at API design, SQL and working closely with product. Always documenting decisions so the next person understands why, not just what. Outside work I volunteer in a women-in-tech community in Recife, running monthly beginner Python workshops. I value feedback and clear communication.

SKILLS

Python, Django, Celery, PostgreSQL, REST, OpenAPI, pytest, Docker, AWS SQS, AWS Lambda, Sentry, Git, Pandas, Postman

EXPERIENCE

Backend Developer, Capibaribe Pay 2022 – Present

- Developed the PIX payment-request API in Django, handling around 120k transactions a day.
- Moved webhooks to SQS with dead-letter queues, so lost callbacks dropped to zero.
- Wrote ADRs for key design choices and ran fortnightly knowledge-sharing sessions.
- Responsible for on-call rota twice a quarter.
- Run code reviews and pair-programming sessions with two junior colleagues.

Junior Python Developer, Olinda Credito Digital 2021 – 2022

- Created internal back-office endpoints and Lambda functions for document checks.
- Optimised slow SQL reports by adding indexes and rewriting joins; reports ran 10x faster.
- Wrote unit tests for the document-check flow and raised coverage from 20% to 70%.
- Worked closely with the compliance team to turn regulatory changes into backlog items.
- Introduced pull request templates and a short definition of done, which made reviews faster and more consistent.

Intern, Software Development, Boa Vista Sistemas 2020 – 2021

- Fixed small defects in a Django back-office system and wrote SQL queries for reports.
- Documented API endpoints and helped test releases before deployment.
- Learned Git flow and agile ceremonies in a team of six.
- Wrote SQL reports for the finance team and explained the figures in plain Portuguese.
- Documented the webhook retry strategy for partner teams.

EDUCATION

- BSc Information Systems, Federal University of Pernambuco Coast (2017 – 2021)

LANGUAGES

Portuguese (native), English (B2), Spanish (A2)

CERTIFICATIONS

- AWS Cloud Practitioner
- Python Avançado, escola online

- Boas Práticas de APIs REST, workshop
