Declan Fogarty-Hale

Director of Product

declan.fogarty-hale@example.com · Dublin, Ireland

SUMMARY

Product leader with sixteen years in enterprise software and healthcare, now directing a group of eight product managers. I set strategy, build healthy product teams and protect them from reactive roadmaps. I mentor product leaders across the wider industry and contribute to a regional product community. I prefer simple strategies that teams can remember.

SKILLS

Product strategy, Portfolio planning, P&L ownership, Team leadership, Market sizing, Regulatory-aware product (HIPAA, MDR), Executive communication, Hiring and coaching, Pricing and packaging

EXPERIENCE

Director of Product, Mercer Health Informatics 2018 – Present

- Lead eight product managers across three clinical software lines with combined revenue of €85m.
- Introduced outcome-based roadmaps and quarterly business reviews, replacing feature-promise lists.
- Led the repackaging of three modules into one subscription, increasing net revenue retention to 118%.
- Hired and developed five product managers, two of whom were promoted to senior.
- Introduced a product operating model with clear decision rights, reducing escalations to the executive team. Represent product in board reviews and in conversations with regulators and key hospital customers.

Group Product Manager, Liffey Enterprise Software 2013 – 2018

- Managed the workflow automation suite and a team of four product managers.
- Negotiated roadmap trade-offs with large customers and sales leadership.
- Closed a strategic partnership that opened the UK public sector.
- Managed relationships with eight strategic accounts and used their feedback to shape roadmap priorities.
- Led a cross-company initiative to simplify pricing and cut quote times by 40%.

Product Owner, Liffey Enterprise Software 2010 – 2013

- Owned backlog for the reporting engine, working with two Scrum teams.
- Worked closely with developers to improve release quality and sprint ceremonies.
- Worked with clinicians to describe workflow needs and turned them into estimated, prioritised epics.
- Learned the details of clinical workflow and integration standards while writing requirements.

EDUCATION

- MBA, Trinity Shore Business School (fictional) (2012 – 2014)
- BSc Computer Applications, Dublin Midlands University (fictional) (2006 – 2010)
