SUMMARY

Product manager for consumer subscription products with seven years of experience. I focus on customer research, pricing and clear roadmaps. Technically curious: I attended a Kubernetes workshop for product people and am familiar with Terraform and CI/CD concepts, mainly so I can follow engineering conversations. Hobbies include long-distance running and volunteering as a mentor for early-career product people. I like data and curiosity in equal measure.

SKILLS

Roadmapping, Customer interviews, Pricing and packaging, Subscription metrics, Stakeholder management, SQL (basic), Jira, Confluence, Agile ceremonies, Technical vocabulary: Kubernetes, Terraform, CI/CD, microservices, APIs, cloud

EXPERIENCE

Product Manager, Thistledown Media 2020 – Present

- Own the subscription product for a digital magazine group with 310,000 paying readers.
- Tested three price points and lifted annual plan uptake by 22%.
- Reduced cancellations by 8% through a redesigned pause-subscription flow.
- Run sprint planning and demos; engineering owns all deployments and infrastructure.
- Collaborate with data analysts on churn models and review their results with finance and marketing. Manage relationships with payment and email vendors and track contract renewals.

Associate Product Manager, Granton Digital Publishing 2017 – 2020

- Wrote requirements and user stories for the reader app and newsletter tools.
- Analysed engagement data and reported weekly to the editorial board.
- Coordinated launches with marketing and customer care.
- Presented the product roadmap to the editorial leadership team every quarter.
- Introduced a single page product brief used by all squads.

Content Operations Coordinator, Granton Digital Publishing 2015 – 2017

- Managed publishing calendars and editorial workflow.
- Learned the basics of editorial systems and digital subscriptions on the job.
- Built and cleaned the newsletter subscriber lists and produced weekly reports on open and click rates for the editors.
- Learned how editorial teams plan content and handle deadlines.
