Greta Lindqvist-Marsh

Product Manager

greta.lindqvist-marsh@example.net · Gothenburg, Sweden

SUMMARY

Mid-level product manager building B2B software for logistics. I like turning messy operational workflows into simple tools, and I spend a lot of time on warehouse floors watching how people actually work. I am an advocate of short feedback loops and love shipping small improvements every week. I am happiest when my work removes a real pain for users.

SKILLS

Customer discovery, Backlog prioritisation, Roadmap communication, Wireframing (Figma), Data analysis, Agile (Scrum), Release planning, Competitor analysis

EXPERIENCE

Product Manager, Nordlast Logistics Tech 2021 – Present

- Manage the warehouse picking app used by 3,500 operators daily across eight countries.
- Cut average pick time by 14% after observing floor workflows and removing three redundant screens.
- Prioritise a backlog of 150 items with sales, support and engineering using weighted scoring.
- Coordinate releases with customer success and write release notes customers genuinely read.
- Introduced a monthly customer advisory group of ten logistics managers who test prototypes before release. Defined pricing tiers for the planning module together with sales leadership.

Associate Product Manager, Skogsvik Systems 2018 – 2021

- Supported two product managers with research, specs and dashboards.
- Ran usability tests with 30 customers and summarised results for leadership.
- Took over the reporting module and grew its weekly active use by 40%.
- Presented quarterly product reviews to executives and handled trade-off conversations with sales.
- Collected usage data from the app and shared it in a weekly digest for the whole company.

Customer Support Specialist, Skogsvik Systems 2016 – 2018

- Handled technical support tickets and logged recurring feature requests.
- Wrote the first public help centre articles and training videos for new customers.
- Visited customer sites each quarter and wrote up summaries that influenced the next planning cycle.
- Learned the shipping and customs domain by working directly with customers.

EDUCATION

- MSc Industrial Management, Chalmers Fjord University (fictional) (2014 – 2016)
- BSc Business Administration, Chalmers Fjord University (fictional) (2011 – 2014)
