Hannah Pickersgill

Junior .NET Developer

hannah.pickersgill@example.com · Leeds, United Kingdom

SUMMARY

Junior developer with two years in a small product team working with C# and ASP.NET Core. Eager to learn, comfortable asking questions and keen on testing. I came into software through an apprenticeship and I value learning by doing. I write tests for the code I touch, ask questions early and like turning feedback into small improvements.

SKILLS

C#, ASP.NET Core, Blazor, SQL Server, Entity Framework, NUnit, Git, REST APIs, Razor Pages, Postman, Debugging, Agile (Scrum), Communication

EXPERIENCE

Junior .NET Developer, Pennine Property Software — 2024 – Present

- Build and fix features for a lettings management portal in ASP.NET Core and Blazor, learning how to break work into small pieces, discuss trade-offs with colleagues and release changes safely at the end of each sprint.
- Added NUnit tests to untested services.
- Implemented export to PDF and CSV for landlords.
- Triage support tickets with the senior developer.
- Took ownership of a small reporting module end to end, from requirements through release.

Apprentice Developer, Aire Valley Digital — 2023 – 2024

- Worked on a customer portal with Razor Pages, where mentors showed me how to debug methodically and how to write readable commit messages and pull request descriptions.
- Wrote SQL queries for dashboards.
- Learned code review practice.
- Added input validation to forms, reducing support calls about incorrect rent figures by about a fifth.
- Learned to read production logs and reproduce customer bugs locally.

Retail Assistant, Leeds Bookshop Collective — 2019 – 2020

- Served customers and managed stock in a busy independent shop.
- Built a small spreadsheet-based stock tracker that the team continued to use.
- Developed communication skills in a fast-paced environment.
- Developed teamwork, time management and customer communication skills.
- Taught myself HTML, CSS and C# through online courses in the evenings.

EDUCATION

- BSc Computing, Yorkshire Metropolitan College (2020 – 2023)

LANGUAGES

English (native)

CERTIFICATIONS

- Level 4 Software Developer apprenticeship standard, completed

- Online course in advanced C# and unit testing
