Imogen Fairweather

Python Developer

imogen.fairweather@example.com · Bristol, England

SUMMARY

Python developer with four years of experience writing Django views, serializers and reporting scripts for a membership charity. Mostly working on forms, admin screens and CSV exports. Keen to learn more about how our hosting works. Outside work I volunteer as a mentor in a code club for teenagers, and I like clear, friendly documentation.

SKILLS

Python	Django	SQL
HTML	CSS	jQuery
pytest	Git	Excel automation
Kubernetes	Terraform	CI/CD
Docker	AWS	Jenkins
Ansible	Helm	Prometheus
Microservices	DevOps	REST APIs
Agile		

EXPERIENCE

Period	Position	Responsibilities
2022 – Present	**Python Developer** Severn Community Trust	• Maintain the Django membership portal used by 45,000 members. • Wrote monthly reporting scripts that export donation data to CSV for the finance team. • Fixed form validation and admin screen defects raised by the support desk. • Attended a one-day Kubernetes workshop and a Terraform and CI/CD concepts talk run by the hosting supplier; the supplier handles all deployments. • Mentor an apprentice developer through reading Django source and writing their first migrations.
2020 – 2022	**Junior Web Developer** Avon Digital Studio	• Built small Django sites and templates for local business clients. • Wrote CSS and jQuery for contact forms and image galleries. • Answered client change requests and updated content. • Learned to write tests with pytest and to read stack traces calmly under client pressure. • Sent monthly progress emails to clients and agreed priorities with them.
2019 – 2020	**Customer Support Analyst** Bristol Software Supplies	• Answered technical support tickets and documented recurring issues in the knowledge base. • Wrote small Python scripts to count and categorise tickets for the manager. • Moved to the web studio after showing initiative with automation.

		• Created a small Django management command that cleans up duplicated members, saving the membership team several hours each month. • Joined the trustees' accessibility review and fixed colour contrast problems on forms.

EDUCATION

2016 – 2019	BA Geography with Computing	University of the South West Coast

LANGUAGES

English (native), French (A2)
