# Isolde Verhoeven-Adeyinka

Senior Product Designer

isolde.verhoeven@example.com · Amsterdam, Netherlands

## SUMMARY

Product designer with twelve years of experience across fintech and travel. I lead discovery, run usability studies and shape design systems. I work best when research, data and craft inform each decision, and I enjoy coaching designers early in their careers. I speak at design conferences on research-led product work and sit on a panel hiring designers. Clarity and empathy guide how I work.

## SKILLS

User research, Interaction design, Figma, Design systems, Prototyping, Usability testing, Journey mapping, Information architecture, A/B test design, Accessibility, Workshop facilitation, Design critique, Stakeholder management, Prototyping tools

## EXPERIENCE

**Senior Product Designer**, Grachtenpay 2018 – Present

- Led redesign of the mobile payments flow; task success rose from 71% to 92% in usability tests.
- Built and maintain a design system of 120 components shared with eight engineers.
- Run monthly research sprints with five to eight customer interviews each.
- Coach three junior designers through portfolio reviews and critique sessions.
- Partner with data analysts to connect usability findings to funnel metrics, helping leadership prioritise the roadmap.

**UX Designer**, Wanderlijn Travel 2013 – 2018

- Redesigned the booking funnel, increasing completed bookings by 14%.
- Conducted card sorting to restructure site navigation.
- Created wireframes and interactive prototypes for stakeholder reviews.
- Introduced design critique rituals and a shared research library used across the company.
- Collaborated with marketing on consistent visual language for a rebrand.

**Graphic Designer**, Tulp Studio 2010 – 2013

- Produced brand identities and print layouts for small businesses.
- Learned typography, layout and client communication on small projects.
- Presented concepts to clients and handled feedback rounds on tight deadlines.
- Participated in client pitches and prepared quick concept boards to support them.
- Learned to estimate design work and agree deliverables with account managers.

## EDUCATION

- MA Interaction Design (thesis on trust in digital payment interfaces), Academy of Design Utrecht Bay (2008 – 2010)
