Jonas Reichenbach

Lead Data Platform Engineer

jonas.reichenbach@example.com · Hamburg, Germany

SUMMARY

Lead engineer for a lakehouse platform on Azure serving about 200 analysts and data scientists. I combine hands-on engineering with budget ownership and vendor discussions. Prefer measured, reviewable change over heroics. Our platform team runs jobs on AKS with Bicep templates, but my focus is the data layer itself. Before moving into data platforms I spent years in business intelligence, so I understand reports from the consumer's side as well as the engineer's.

SKILLS

Azure Databricks, Delta Live Tables, Azure Data Lake, Synapse, PySpark, SQL, Unity Catalog, Purview, Azure DevOps, Bicep, Power BI, Delta Sharing

EXPERIENCE

Lead Data Platform Engineer, Fjordmark Industrie AG 2020 – Present

- Established medallion architecture with Unity Catalog governance across six business units.
- Cut compute cost by 35% via job clusters, auto-termination and workload tagging.
- Hired and coached a team of five; defined the interview process.
- Introduced Azure DevOps release gates for notebook and pipeline promotion.
- Partnered with the security team on encryption, masking rules and audit logging for personal data.

Data Engineer, Elbtal Versicherung 2015 – 2020

- Built Informatica and later Spark based loads for the actuarial data mart.
- Designed row-level security for sensitive policyholder data.
- Introduced code reviews and a shared style guide for ETL development across a team of eight.
- Delivered a customer master data project that merged four source systems into one trusted record.
- Presented progress reports to steering committees and managed vendor relationships.

BI Developer, Alster Consulting 2012 – 2015

- Delivered SSIS packages and cubes for mid-sized clients.
- Gave regular workshops on dimensional modelling to business analysts.
- Maintained scheduled refresh processes for the finance reporting suite.
- Gathered requirements for dashboards in workshops and translated them into dimensional models.
- Trained client staff to maintain their own reports and documentation.

EDUCATION

- Diplom Wirtschaftsinformatik, Hochschule Nordwest (2007 – 2012)

LANGUAGES

German (native), English (C2)

CERTIFICATIONS

- Azure Data Engineer Associate
