Lourdes Echeverría-Pons

iOS Developer (SwiftUI)

lourdes.echeverria@example.org · Seville, Spain

SUMMARY

iOS developer with four years of experience in health and wellbeing apps. I enjoy SwiftUI, HealthKit and designing interfaces that remain clear for older users. Currently exploring on-device machine learning. Outside work I volunteer teaching smartphone basics to older neighbours, which keeps usability in focus for everything I build. I enjoy collaborating with clinicians and designers.

SKILLS

Swift, SwiftUI, HealthKit, Core ML, Combine, CloudKit, XCTest, Xcode Cloud, Accessibility (VoiceOver), Git, Swift Charts, SwiftData

EXPERIENCE

iOS Developer, Giralda Salud Digital — 2023 – Present

- Develop the iOS app for a chronic-care programme, integrating HealthKit data and Apple Watch complications.
- Added VoiceOver and Dynamic Type support; accessibility audit findings fell from 41 to 3.
- Prototyped an on-device Core ML model for activity classification.
- Release through Xcode Cloud and TestFlight with clinical staff as testers.
- Collaborate with clinicians and designers to run usability sessions with real patients.

Junior iOS Developer, Triana Apps — 2021 – 2023

- Built SwiftUI screens and CloudKit sync for a habit tracker.
- Wrote XCTest unit tests and UI tests.
- Supported the App Store review and update process.
- Learned to submit and maintain apps on the App Store and respond to review feedback.
- Helped define the habit tracker's notification strategy.

Trainee Mobile Developer, Guadalquivir Software — 2020 – 2021

- Built small iOS prototypes and fixed UI defects during the final year of my degree.
- Learned Git, pull requests and basic unit testing with XCTest.
- Documented screens and flows for the product owner.
- Documented the HealthKit data model and permission strategy for the team and for compliance reviewers.
- Wrote unit and snapshot tests for the main care plan flow.

EDUCATION

- Grado en Ingeniería del Software, Universidad de Andalucía del Sur (2017 – 2021)

LANGUAGES

Spanish (native), English (B2), Portuguese (B1)

CERTIFICATIONS

- Digital Health Fundamentals, Andalusia Health Informatics Network
- Accessible Mobile Design, online course
