Lucas Brandolini Tavares

Senior Big Data Engineer

lucas.tavares@example.com · Sao Paulo, Brazil

SUMMARY

Big data specialist with fifteen years behind me, from Hadoop clusters to modern lakehouse stacks. I have lived through several migrations and know which ones were worth it. Practical, documentation-minded, and comfortable dealing with legacy systems. I like documenting architecture decisions and teaching teams to work with open table formats and distributed queries. I favour shared knowledge, code review and automated tests on every data flow.

SKILLS

Hadoop, Hive, Spark, Iceberg, Trino, Airflow, Scala, Python, HDFS, Parquet, Ranger, SQL tuning, dbt

EXPERIENCE

Senior Big Data Engineer, Banco Paulistano de Crédito 2017 – Present

- Led migration of a 600 TB Hive warehouse to Iceberg tables queried through Trino.
- Decommissioned two on-premise Hadoop clusters, saving roughly 1.2 million BRL per year.
- Defined partitioning and compaction standards adopted by twelve teams.
- Introduced column-level access policies and audit trails for data subject to privacy regulation.
- Gave internal talks on table formats and published migration guidelines for other business units.

Data Engineer, Cafezal Agro Analytics 2012 – 2017

- Wrote MapReduce then Spark jobs for crop yield models.
- Maintained Oozie workflows.
- Trained fifteen analysts to write efficient Spark and Hive queries.
- Tuned Spark jobs through broadcast joins and better file layouts, saving about 30% of runtime.
- Supported the data science team with feature extracts.

Software Developer, Tupi Sistemas 2009 – 2012

- Built reporting modules in Java and Oracle PL/SQL.
- Learned SQL tuning on large Oracle tables and wrote stored procedures for monthly closing.
- Built Oozie workflows and Hive scripts for yield reports.
- Documented every dataset and owner in a shared wiki.

Systems Analyst Trainee, Mata Atlântica Software 2008 – 2009

- Tested software releases and wrote bug reports.
- Maintained a SQL database for internal tools.
- Provided first-line support to users.
- Monitored overnight batch jobs and escalated failures to the right team.

EDUCATION

- BSc Computer Science, Southern Plateau Federal University (2004 – 2008)

LANGUAGES

Portuguese (native), English (C1)
