- English (fluent)
- German (C1)
- Igbo (native)

CERTIFICATIONS

- CompTIA Server+

EDUCATION

- BSc Business Informatics, Hochschule Nordhafen (2010 – 2014)

SUMMARY

IT administrator for a logistics company with several warehouses. I handle servers, networks, user accounts and, when needed, a screwdriver. Strong on backups, patching and keeping people productive. I work well with warehouse supervisors, drivers and managers alike, and I enjoy translating technical constraints into plain language. In my spare time I volunteer teaching basic IT skills at a community centre.

EXPERIENCE

IT Administrator, Elbe Spedition GmbH 2017 – Present

- Administer 25 servers, two Hyper-V clusters and network equipment across four sites.
- Introduced nightly offsite backups with Acronis and quarterly restore drills.
- Manage Microsoft 365 licences, mailboxes and multi-factor authentication for 380 users.
- Set up warehouse Wi-Fi and barcode scanner connectivity; downtime on scanning fell by more than half.
- Replaced ageing switches in two warehouses and documented the cabling, which cut fault-finding time.
- Implemented a simple ticketing system and published response targets for the business.
- Coordinate with external suppliers for internet lines, telephony and printers, and keep contract renewals on a shared calendar.
- Document network layouts, server roles and passwords in a secured vault so that cover during holidays is straightforward.
- Run monthly patching on Saturdays outside peak dispatch times.
- Evaluate small tools for inventory and remote support and recommend the best value option to management.

Junior IT Administrator, Nordhafen Handel 2014 – 2017

- First- and second-line support for 150 users.
- Maintained printers, thin clients and telephony.
- Wrote PowerShell scripts for account creation.
- Wrote an onboarding guide for new starters and a short cyber-awareness session for staff.
- Standardised workstation images to speed up replacements.
- Introduced a standard laptop image and a simple hardware loan pool for new employees.
- Handled user questions politely in German and English at all four sites.
