SUMMARY

Mobile developer with five years of experience building React Native apps for hospitality and events. I focus on screens, navigation and forms, and enjoy polishing user interface details. Open to broader engineering topics. Outside work I mentor new developers in a local women-in-tech community and I like designing small, pleasant interactions.

SKILLS

React Native, JavaScript, TypeScript, Redux Toolkit, React Navigation, Expo, REST, Jest, Detox, Figma, Kubernetes, Terraform, CI/CD, Docker, AWS, Azure, Microservices, Sentry, Storybook

EXPERIENCE

React Native Developer, Piemonte Hospitality Apps 2022 – Present

- Develop the guest app for a hotel group, used in 120 properties.
- Built booking, check-in and digital key screens with React Navigation and Redux Toolkit.
- Integrated push notifications and Apple and Google wallet passes.
- Our backend team runs Kubernetes, Terraform and CI/CD; I am familiar with the concepts but do not work on them.
- Mentor a junior developer and review the app's navigation and accessibility patterns.

Mobile Developer, Mole Eventi Digitali 2019 – 2022

- Built an event ticketing app with QR scanning and offline mode.
- Added Detox tests for purchase and entry flows.
- Handled app store submissions and release notes.
- Learned release management for iOS and Android, including provisioning and store policies.
- Worked closely with designers on a consistent component set.

Junior Web Developer, Torino Web Agency 2017 – 2019

- Built responsive websites and React components for local hotels and restaurants.
- Learned Git workflows and cross-browser debugging.
- Supported clients by phone and email after launches.
- Wrote documentation of the component library and ran short onboarding sessions for new developers.
- Handled accessibility fixes for large text and screen readers after a customer audit.
