# Oluwaseun Adebayo-Clarke

Senior Product Manager, Payments

oluwaseun.adebayo-clarke@example.org · Manchester, United Kingdom

## SUMMARY

Product manager with ten years in fintech, focused on payments and onboarding. I work from customer problems, define outcomes with engineering and design, and measure success with a small set of honest metrics rather than a long feature list. I am comfortable presenting to boards and regulators as well as to engineers and designers. I enjoy mentoring and am active in two product communities.

## SKILLS

Product discovery, Roadmapping, OKRs, A/B testing, SQL, Stakeholder management, Pricing experiments, Jira, Amplitude, User story mapping

## EXPERIENCE

**Senior Product Manager**, Cobalt Pay 2020 – Present

- Own the merchant onboarding roadmap; redesigned the flow and raised completed signups from 38% to 57%.
- Launched instant payouts in three markets, generating £4.2m additional annual revenue.
- Run weekly discovery interviews with merchants and feed findings directly into quarterly planning.
- Manage two product managers and coach them on prioritisation.
- Work with compliance to design features that meet strong customer authentication rules without hurting conversion. Defined the product vision and strategy for payments, shared with all 90 colleagues in the division.

**Product Manager**, Fenwick Money Services 2016 – 2020

- Shipped a mobile wallet from concept to 200,000 users with a team of nine.
- Defined fraud-friction trade-offs together with the risk team and cut false declines by 18%.
- Wrote clear specs and acceptance criteria for engineering squads.
- Partnered with partner banks in four countries and negotiated integration timelines.
- Created a shared metrics dashboard that replaced six separate spreadsheets.

**Business Analyst**, Fenwick Money Services 2014 – 2016

- Documented processes and requirements for card services migration.
- Learned the basics of card processing, settlement and reconciliation while documenting migration requirements.
- Partnered with the operations team to automate manual reconciliation steps, saving roughly two person-days every week.
- Learned how card schemes and acquirers work while preparing migration documentation.

## EDUCATION

- BA Economics, University of Mersey Vale (fictional) (2010 – 2013)

## LANGUAGES

English (native), Yoruba (conversational)

## CERTIFICATIONS

- Pragmatic Product Certificate
