Piotr Zalewski

Network and Systems Administrator

piotr.zalewski@example.com · Gdansk, Poland

SUMMARY

Administrator with a networking background. I enjoy tidy racks, accurate diagrams and predictable maintenance windows. Eleven years supporting infrastructure in education and public sector. I like documenting networks and keeping maintenance windows predictable. I also teach a short evening course on Linux administration for local adults retraining in IT.

SKILLS

Cisco IOS, Juniper, Linux (Ubuntu, CentOS), Proxmox, Samba, OpenLDAP, Bacula, Zabbix, FreeRADIUS, Bash

EXPERIENCE

Network and Systems Administrator, Baltic City University Services 2016 – Present

- Manage the campus network of 90 switches and 300 access points.
- Run a Proxmox cluster hosting 60 virtual machines and keep Bacula backups to disk and tape.
- Operate authentication with OpenLDAP and RADIUS for students and staff.
- Keep Zabbix monitoring and an up-to-date network diagram.
- Planned and executed a campus-wide VLAN redesign that improved isolation between student, staff and guest traffic.
- Introduced a change calendar and a post-maintenance review for each major activity.
- Write procedures for network changes, rollbacks and fault escalation, and train the two junior technicians to follow them.
- Evaluate new equipment and prepare technical specifications for public tenders, including support and warranty terms.
- Maintain a small lab to test firmware upgrades before they reach production switches.
- Provide on-call cover for the network during exam periods, when availability matters most to students and lecturers.
- Report monthly on bandwidth use, uptime and outstanding tickets to the IT director.

Systems Technician, Gdansk Regional Office 2013 – 2016

- Supported 200 workstations and local servers.
- Configured VPN and mail relays.
- Built a monitoring dashboard on wall screens in the IT office so problems are visible as they happen.
- Implemented 802.1X authentication across wired ports.
- Replaced an ageing mail relay with a better-filtered setup and improved spam handling.
- Kept an inventory of workstations, licences and warranties for audit purposes.

EDUCATION

- BSc Telecommunications, Gdansk Technical Academy (2010 – 2013)

LANGUAGES

Polish (native), English (B2)
