Priyanka Venkataraman

Full-Stack Engineer (React / Node.js)

priyanka.venkataraman@example.com · Bengaluru, India

SUMMARY

Full-stack engineer with seven years of experience taking features from design discussion to production. I like TypeScript end to end, accessible interfaces and instrumenting what I build so I can see how people use it. I speak at local front-end meetups and I volunteer to review accessibility on community projects.

SKILLS

TypeScript, React, Next.js, Node.js, NestJS, GraphQL, PostgreSQL, Jest, Cypress, Storybook, AWS S3, Datadog, Tailwind CSS, Playwright

EXPERIENCE

Senior Full-Stack Engineer, Lakshya Commerce 2020 – Present

- Led the rebuild of the seller dashboard in React and Next.js, raising Lighthouse performance scores from 48 to 91.
- Designed a NestJS GraphQL layer that combined five REST services and removed three client round trips.
- Introduced Storybook and visual regression tests; design inconsistencies dropped sharply.
- Mentored three junior developers and interviewed about forty candidates.
- Run fortnightly performance clinics where developers profile their pages together.

Software Engineer, Kaveri Retail Solutions 2017 – 2020

- Built a Node.js inventory service and a React admin console for 600 stores.
- Wrote Cypress end-to-end tests covering checkout and refunds.
- Added Datadog dashboards for order failures.
- Migrated the checkout flow from jQuery to React with feature flags, with no drop in conversion.
- Mentored two interns, one of whom was hired full time.

Software Engineer Trainee, Cauvery Soft Technologies 2015 – 2017

- Built small Java and JavaScript features while studying and learned the full development cycle.
- Wrote unit tests and documented REST endpoints for the QA team.
- Rotated through support and development to understand customer problems.
- Implemented keyboard navigation and screen-reader support for the dashboard, passing an external accessibility audit.
- Worked with product managers to cut a quarterly roadmap down to three measurable bets.

EDUCATION

- BE Computer Science, Mysore Institute of Technology and Science (2013 – 2017)

LANGUAGES

English (fluent), Tamil (native), Kannada (B2)

CERTIFICATIONS

- Advanced React Patterns, Bengaluru Frontend Guild
- Web Accessibility Specialist, online programme
