Rohan Bhattacharjee-Doyle

Junior UX Designer

rohan.bhattacharjee@example.net · Edinburgh, United Kingdom

SUMMARY

Junior designer in my second year, coming from a psychology background. I enjoy user interviews, sketching flows on paper and turning them into clickable prototypes. Eager to learn design systems and work with engineers. I am quiet in meetings but thorough in my notes, and I volunteer running design workshops with local school children. I want to keep building craft in a team that gives frequent feedback.

SKILLS

Figma, Paper prototyping, User interviews, Usability testing, Wireframes, Miro, Affinity diagrams, Basic HTML and CSS, Thematic analysis, Survey design, Research ethics

EXPERIENCE

Junior UX Designer, Firth Studio 2023 – Present

- Support senior designers with interview synthesis and wireframes for an energy-tariff app.
- Designed the onboarding screens, tested with eight users and iterated twice.
- Maintain the team's research repository.
- Present research findings to the team each sprint and update the shared backlog of usability issues.
- Learned to run remote moderated sessions and prepare consent forms.

UX Intern, Leith Health Tech 2022 – 2023

- Recruited participants and took notes during usability sessions.
- Produced a heuristic evaluation of the patient messaging screens.
- Built small prototypes in Figma for internal demos.
- Drafted interview guides, ran pilot sessions and refined questions before the main study.
- Shadowed the product designer during stakeholder workshops.

Research Assistant, University of the Lothians 2020 – 2021

- Coded interview transcripts and summarised themes about technology use among students.
- Designed short surveys and analysed responses with spreadsheets.
- Presented results in a final-year poster session.
- Created short summaries of research for lecturers and received positive feedback on clarity.
- Learned basic statistical tests and chart design for presenting survey results.

EDUCATION

- MSc UX Design (conversion course) (dissertation on attention and mobile interfaces), Edinburgh College of Design and Technology (2021 – 2022)
- BSc Psychology, University of the Lothians (2018 – 2021)

LANGUAGES

English (native), Bengali (conversational)

CERTIFICATIONS

- Interaction Design Foundation course
