Sebastián Aldecoa-Frey

UX/UI Designer

sebastian.aldecoa@example.net · Madrid, Spain

SUMMARY

UX and UI designer with five years of experience making complex business tools feel simple. I move fluidly from sketches to high-fidelity screens, and I validate ideas with quick tests before handing over to developers. I am detail-oriented, enjoy pairing with developers and like to learn from every usability session. In my free time I take illustration classes to keep my visual skills sharp. I value feedback and small, cross-functional teams.

SKILLS

Figma	FigJam	Wireframing
Visual design	Prototyping	Usability testing
Design tokens	Motion design	Developer handoff
Heuristic evaluation	Illustration	Adobe Illustrator
Typography	Design critique	Agile
User flows		

EXPERIENCE

Period	Position	Responsibilities
2021 – Present	**UX/UI Designer** Meseta Software	• Redesigned the invoicing module; support tickets about it dropped by 33%. • Produced component specifications and design tokens used by the front-end team. • Run guerrilla usability tests with five users per iteration. • Present design rationale to product owners every sprint. • Maintain a living style guide with usage notes so new designers can contribute quickly.
2019 – 2021	**Junior UI Designer** Retiro Digital Agency	• Designed landing pages and email templates for retail clients. • Assisted senior designers with user flows and prototype building. • Created icon sets and illustrations. • Worked closely with account managers to align designs with client branding. • Learned motion principles and delivered micro-interactions for hover and loading states.
2018 – 2019	**Design Intern** Chamberí Creativos	• Created social media assets and simple banners following brand guidelines. • Assisted designers with user flow diagrams and collected feedback on mockups. • Learned to prepare files for developer handoff with clear naming and exports. • Joined client calls to understand requirements and took clear notes afterwards. • Practised preparing handoff files with naming conventions and exported assets for developers.

EDUCATION

2015 – 2019	Grado en Diseño Gráfico (final project: signage system for a university campus)	Escuela Superior de Diseño de la Meseta

LANGUAGES

Spanish (native), English (B2)

CERTIFICATIONS

- Google UX Design Certificate
