Shreya Kulkarnibhat

Senior Business Analyst

shreya.kulkarnibhat@example.com · Pune, India

SUMMARY

Business analyst with nine years in banking and insurance. I bridge business stakeholders and delivery teams by turning vague needs into clear, testable requirements and by keeping documentation useful rather than heavy. I mentor junior analysts and enjoy facilitating workshops that move stakeholders from disagreement to decisions. I take pride in documents that people actually use.

SKILLS

Requirements elicitation, Process modelling (BPMN), User stories and acceptance criteria, Gap analysis, SQL, UAT coordination, Workshop facilitation, Power BI, Jira and Confluence

EXPERIENCE

Senior Business Analyst, Sahyadri Insurance Tech 2019 – Present

- Lead requirements for a claims modernisation programme involving 5 teams and 40 stakeholders.
- Mapped 25 end-to-end processes in BPMN and identified savings worth about 12% of handling cost.
- Write acceptance criteria and support UAT with business users.
- Use SQL to validate data migration and spot defects before go-live.
- Maintain a living requirements catalogue linked to test cases, which cut late-found gaps by 30%. Present status and risks to the steering committee every fortnight.

Business Analyst, Deccan Retail Bank 2015 – 2019

- Gathered requirements for a mobile banking enhancement used by 1.5 million customers.
- Ran workshops with operations, compliance and IT.
- Produced weekly Power BI reports for programme leadership.
- Reviewed regulatory changes with compliance and translated them into system requirements.
- Trained five new analysts on documentation standards.

Associate Analyst, Deccan Retail Bank 2014 – 2015

- Supported reporting and documentation for the loans team.
- Gained exposure to credit scoring and collections processes.
- Prepared monthly management information packs and cleaned data from legacy loan systems before reporting.
- Supported a UAT cycle for a new loan portal and tracked 120 defects to closure.
- Learned the bank's business domain, from account opening to collections.
