Wojciech Przybylski

Lead QA Engineer

wojciech.przybylski@example.net · Kraków, Poland

SUMMARY

Lead QA engineer, thirteen years of experience. I run a team of six testers and automation engineers on an e-commerce platform. Strong on test strategy, release readiness and building a culture where developers own quality. Hands-on with Java and Selenide. I coach people more than I code these days, but I keep my hands dirty in the framework. I enjoy structured retrospectives and clear metrics. I like transparent planning and honest retrospectives.

SKILLS

Java, Selenide, JUnit 5, REST-assured, Allure, Jenkins, Test management, Risk-based testing, Team leadership, SQL, Postman, Test planning, Defect triage, Metrics reporting, Stakeholder management, Release management, Agile

EXPERIENCE

Lead QA Engineer, Wisła Marketplace 2017 – Present

- Lead six QA engineers across three feature teams.
- Grew automated coverage of checkout and search from 30% to 78% in two years.
- Introduced risk-based test planning, reducing release candidate cycle by 35%.
- Hold quarterly retrospectives on escaped defects.
- Report quality indicators to the director of engineering every month and plan capacity for peak seasons.

Senior QA Engineer, Tatra Online Services 2013 – 2017

- Built Selenide suites for a travel booking portal.
- Ran load tests ahead of seasonal peaks.
- Managed relationships with an outsourced test team.
- Introduced a buddy system where developers pair with testers on the riskiest features.
- Negotiated tooling licences and chose the team's reporting platform.

QA Engineer, Podhale Software House 2011 – 2013

- Executed functional and regression tests, documented results.
- Wrote regression checklists and learned domain knowledge in travel pricing.
- Supported releases during weekends when needed.
- Recorded manual test cases in a shared tool and reviewed them weekly with analysts.
- Learned SQL and log analysis to investigate order processing errors.

EDUCATION

- MSc Computer Science (thesis on software reliability metrics), Jagiellonian Technical College (2006 – 2011)

LANGUAGES

Polish (native), English (C1)

CERTIFICATIONS

- ISTQB Advanced Test Manager
- Agile Leadership Foundations course
